Some people who received this message don't often get email from [rodney.salyers@truteam.com](mailto:rodney.salyers@truteam.com). [Learn why this is important](#)

Let me see what I can do. Spray foam would currently be the best option . I wouldn't recommend doing a vapor barrier for it will trap moisture between the fiberglass and plastic .

Thank you

Good afternoon Rodney,

I know it has only been three business days since my request but I was just wondering if you had a time frame of when we could expect a quote from you. Please let me know when you get a chance. Thanks so much.

Kind regards,

*Renee Rae Sloan*

Good afternoon Rodney,

Please see the attached files requested to provide quote a for R-30 insulation with a 10 mil vapor barrier with vapor barrier taped at seams for all crawl spaces and alternate quote for spray foam that equals the R-30 insulation. Joe is asking what is your lead time to get started on the homes once your quote has been signed.

Have a great weekend,

*Renee Rae Sloan*
